- Registration System
- Forums
- Header Manager
- Chat Rooms

See Additional Setup Features on page 4 for a full description of Power Template features.

SECTION ONE

PICK THREE OR PICK FIVE SETUP OPTION

Pick Three \$198 or Pick Five \$396

Applicable to Standard, Existing, and Custom non-Power Templates only.

Do you need more than one Additional Setup Option? Pick three and pick five allow you to purchase additional features while giving you the power to choose three or five options at a discounted rate. Identify your choices under Additional Setup Options on page 4. Look for the 3/5 symbol.

MINISTRY LOGO IDENTITY PACKAGE

\$1,999

If your ministry does not currently have branding or a logo, then allow ChurchSites to create a logo identity for your ministry. For a reasonable one-time cost, our talented design team will work with you to create a package that visually communicates your church's unique identity. Electing to have ChurchSites create your logo identity and website will create cohesive marketing materials. Printing and custom website design costs are additional.

The Logo Identity Package Includes:

- business card design
- letterhead design
- envelope design
- original logo source file to insert in ministry documents via software programs you currently own; like Microsoft Word.

CUSTOM DEVELOPMENT

Call For Free Quote

Do you desire to add custom features to your site that are unique to your ministry's online needs? Custom application development with features like Flash or database integration with software like ACS, Shelby, or QuickBooks is available. Quoted on a project basis.

Call today for a free development quote.

SECTION ONE

ADDITIONAL SETUP OPTIONS

PT = Included with the Power Template option. 3/5 = Features available in the Pick Three or Pick Five options.

Inbox Outreach [PT or 3/5]

One Time Setup Cost \$99 (up to 10,000 subscribers)

Inbox Outreach is a web-based email marketing solution designed to manage multiple emails and/or email newsletters. Create and send professional email campaigns in minutes with Inbox Outreach. Create your own email design template or allow us to create a custom design for you (additional charges for custom design). Every email includes a one-click link for your recipients to manage their subscriptions assuring your subscribers that you are a legitimate permission-based email sender. If you need more than a 10,000 subscriber capacity, please call for an additional setup quote.

Web Statistics by Google Analytics [PT or 3/5]

One Time Setup Cost \$99

Site Statistics by Google Analytics - one time set-up cost - \$99.00 - Google Analytics tells you everything you want to know about how your visitors found you and how they interact with your site. Focus your marketing resources on campaigns and initiatives that deliver ROI, and improve your site to convert more visitors. Google Analytics has the enterprise level capabilities you'd expect from a high end web analytics offering and also provides timesaving integration with AdWords. Of course, Google Analytics tracks all of your non-AdWords initiatives as well. Learn how visitors interact with your website and identify the navigational bottlenecks that keep them from completing your conversion goals. Find out how profitable your keywords are across search engines and campaigns. Pinpoint where your best customers come from and which markets are most profitable to you. Google Analytics gives you this and more through easy-to-understand visually enhanced reports.

Registration System [PT or 3/5]

One Time Setup Cost \$99

This tool allows you to create online registration for your events (retreats, conferences, prayer breakfasts, youth events). You can also setup a merchant account* to accept credit card payments for your events. *Merchant account requires additional setup costs and monthly fees.

Forums [PT or 3/5]

One Time Setup Cost \$99

Our Forums feature is a communication module that allows users to post messages 24 hours a day, 7 days a week. Forums are very similar to chat rooms in their ability to allow multiple people to be involved in an online discussion that can then be read and responded to by other users. Discussions can range from an online study group to suggestions for the next youth group retreat to what hymns should be included in an upcoming worship service. Forums can be moderated or un-moderated. Also, password protection can be utilized so you can choose who views the forums. You are not limited by the number of Forums you can create and host.

Header Manager [PT]

One Time Setup Cost \$200

This option allows you to create and upload your own header images into each mini-site that you create using the ChurchSites system. Plus, it gives you the ability to change the image header on your main site pages with technical ease.

SECTION ONE

Chat Rooms [PT or 3/5] One-time Setup Cost \$99

Create chat rooms where users can communicate together in real time. Have members join an online brainstorming session, discuss upcoming events, or use in conjunction with an online video forum to hold an online meeting.

Donations System [3/5] One Time Setup Cost \$99 (requires merchant account and SSL Certificate)

The Donations System provides the ability to take online donations for your ministry. *A Merchant account setup fee and an SSL Certificate Purchase costs are required to enable the donations system; see Merchant Account and SSL pricing below.

Asset Management/Scheduling System One Time Setup Cost \$299

This tool makes it easy for someone in your church to schedule a room request for an upcoming meeting or event. This tool also allows for the requisition of audio/video equipment needed for a specific event, plus, the ability for room setup requests (tables, chairs, etc.).

Audio/Video Streaming System (includes Podcasting) FREE Set-up for Standard AVS Package One Time Setup Cost for PowerPackage \$299

Our Standard AVS uses a flash based player and allows you to upload .mp3 files for audio and .flv files for Flash Video.

Our Audio/Video Media System (AVS) has been specifically designed for forward thinking ministries. AVMS gives your ministry an affordable and easy way to distribute your audio and video content on the Internet. The ChurchSites AVMS uses a world wide streaming media network, with more than 14,000 servers in 1,100 networks in 65+ countries. AVMS can help your ministry increase the global performance, reliability and scalability of all your Web-based audio and video content. Whether you have 1 user or 1,000 + simultaneous users viewing your audio or video content the ChurchSites AVMS is the most reliable and cost-effective solution for ministries. *See monthly hosting requirements below or on page 12.

*Additional AVS Monthly Costs

The AVS has a minimum monthly cost of \$25.00. This includes 3GB's of data storage for your website to upload your media files. Larger storage blocks are available. See the website for full details.

Live Streaming One Time Setup Cost \$999

ChurchSites Live Streaming now offers you the ability to deliver digital media from your ChurchSites website. You can webcast live events like: office-to-office, retreat speakers, and worship services. As a Content Delivery Provider (CDP) we know the particular digital delivery needs of ministries. ChurchSites can provide your organization the most reliable and cost-effective solutions for delivering high-quality digital media over the Internet. Requirement: The AVMS is required to harness the power of the Live Streaming functionality. Required Audio/Video hardware not included.

SECTION ONE

Product/eCommerce Catalog with Integrated Shopping Cart One Time Setup Cost \$299

Easily update this dynamically-generated product catalog. You can add multiple manufacturers, categories and sub-categories, define shipping costs, and include pictures of products. All updating is done through our easy online forms. Our catalog also comes equipped with a fully integrated shopping cart that tracks products sales and other important reports that are vital to keep on top of your growing online eCommerce venture.

Template Design Modification (applies to Standard Template option only) One Time Setup Cost \$225

Realizing that colors are important to the overall image of your site, your ministry now has the option of modifying the color scheme or inserting your pictures into of any of our \$199 ChurchSites templates. After choosing a \$199 template design, consult with one of our ChurchSites representatives for assistance in defining the modifications you would like one of our designers to make to your website.

Merchant Account Total Setup \$49.95

What is a Merchant Account?

A merchant account allows your organization to accept credit card payments. The account is tied directly to your bank account, so all payments received are deposited directly into your account.

Why do I need a Merchant Account?

If your organization wants to accept online donations or process credit cards on your online ChurchSites Product Catalog or Registration System, then you will need to get a merchant account.

What are the costs of a Merchant Account?

There are separate setup fees and monthly charges for any merchant account. These fees are billed from the merchant provider, not from ChurchSites. If you already have a merchant account, additional setup costs billed from ChurchSites will apply to integrate our systems with your merchant. Ask for a quote.

Secure Sockets Layer (SSL) Certificate Setup Fee \$50.00

All ChurchSites clients that have a merchant account and accept credit cards are required to purchase an SSL certificate for their website. The SSL certificate encrypts the data between the user and your website, guaranteeing that the user's information cannot be stolen as it passes through the Internet. The set-up cost for an SSL Certificate is a one-time \$50.00 fee and \$10.00 per month hosting.

SECTION ONE

ADDITIONAL AVAILABLE SERVICES

ChurchSites Training - (Email training@churchsites.com to schedule your paid training session.)

Online Training (FREE)

ChurchSites offers Online Training where we'll cover specific features in a 2 hour basic training session. Watch and listen to one of our customer support staff walk you and other ChurchSites users through the basics of how to use the ChurchSites system. These training sessions requires you have a Internet enabled computer (for visuals) and a phone line (for audio). You may crowd in as many people around your computer and phone as you like!

To view a current Online Training Schedule please visit:
<http://www.churchsites.com/registrationclientlist.asp>

Hourly Phone Training (\$45/Hour)

Need detailed help in a few areas? Perhaps you have a unique challenge that you'd like some help applying to the ChurchSites system. Or perhaps you would like some help in knowing how to harness the power of a specific ChurchSites feature. We're here to help. One-on-one training by phone is available with one of our customer support staff for \$45 per hour. These training sessions requires you have a Internet enabled computer (for visuals) and a phone line (for audio). You may crowd in as many people around your computer and phone as you like!

One Day On-Site Training (\$600.00/8 Hours)

If you'd rather meet with us face-to-face or perhaps have more than one person to train, a full day (8 hours) of onsite training may be just right for you. For a \$600.00* per day cost (plus travel expenses), we'll come to your facility to help you to make the most of the tools available through ChurchSites. *Additional hours at \$75.00 per hour.

Half Day On-Site Training (\$300/4 Hours)

If you'd rather meet with us face-to-face or perhaps have more than one person to train, a half day (4 hours) of onsite training may be just right for you. For a \$300.00* per day cost (plus travel expenses), we'll come to your facility to help you to make the most of the tools available through ChurchSites. *Additional hours at \$75.00 per hour.

Domain Names

Create a new domain name for your ministry or transfer your current domain name. Starting at \$9.95 a year, plus a free one year extension with transfer only.

Free with every domain

- Change of registration
- Parked page with domain
- Domain name locking
- Status alerts
- Total DNS control

Visit StratumWeb Domains at: <http://www.churchsitesdomains.com>

SECTION ONE

Vendor House Online Store

Vendor House offers an online store solution for ministries that is fully functional and customizable. With this solution, a ministry has the opportunity to earn commissions through product sales or upload proprietary products to sell in the Vendor House community.

Recommended for individuals, brick & mortar storefronts, churches, ministries and non-profit organizations looking to start an e-commerce website to sell their proprietary products as well as thousands of other commissionable products.

Includes:

- Monthly Hosting & Maintenance fees for online store
- Ability to customize product selection
- Drop shipping of all Vendor House products (No warehousing of products, we do all of the product fulfillment on Vendor House products)
- Ability to customize your store's header/logo graphic (ChurchSites can also customize a header for you; additional costs apply)
- Ability to load up to your own products to your store with the Gold Package
- All credit card processing charges are included
- Ability to add your own About Us and Contact Us Page information
- **Non-Network Option:** this package is NOT part of the Vendor House Network Marketing Plan; if you are interested in loading more than 25 products and/or participating in our network option for a greater revenue stream for your ministry, then please ask your ChurchSites consultant for more details.

Bronze Package Commission Opportunities:

- Earn up to 15% commission on thousands of pre-loaded products such as books, CD's, DVD's, electronics, computers & more.
- Sell your own proprietary products on your site as well as the entire Vendor House network of stores.

Visit our online bookstore...

<http://www.churchsitesbookstore.com>

SECTION TWO

description of monthly hosting plan

MONTHLY CHURCHSITES HOSTING PLANS

After choosing a design option and the additional setup options, you must choose a monthly hosting plan. The monthly hosting cost is based on how many content managers you will initially need for your site. Site content managers have security access to administrative tools needed to add and edit the content information on your site.

Monthly ChurchSites Hosting Plans

Content Managers	Mini-Sites & Email	Storage Space	Monthly Fee
1 Person	UNLIMITED	50 MB	\$25.00
2-4 People	UNLIMITED	100 MB	\$50.00
UNLIMITED	UNLIMITED	500 MB	\$100.00
▼ Audio/Video Streaming & Podcasting			

(For more information about the AV Streaming System visit <http://www.churchsites.com/avms>)
(see descriptions of each category to the right)

Content Managers

Content Managers are the people in your organization who keep the website content current. The more-broadly content management responsibilities are shared, the more up-to-date your website will remain.

Mini-Websites

UNLIMITED mini-sites, complete with their own specific applications: prayer, news, FAQs, media, photo gallery, links and calendar.

Email

Each ChurchSites system includes UNLIMITED email accounts (POP3/Web-based) for the main domain name.

Storage Space

This is the amount of disk storage (in megabytes) included with the use of the ChurchSites system. The number of pages on your website or amount of text do not count against storage capacity. Uploaded files (pictures, audio, video, etc.) count towards storage space. Additional disk storage is available for \$10 per month per 1GB.

Hosting pricing is determined by two factors

- First, how many Content Managers do you require to manage the content on your site? The lowest priced level includes one Content Manager and the highest level includes unlimited Content Managers.
- Second, how much storage space do you need? Most ministries find that the provided storage option adequately serves their hosting needs. Larger churches (250+ attendees) may require more mega-byte storage capacity. If at any time during your hosting you need more storage space than what you originally chose or if you go over your original amount, you can acquire additional storage space in increments of 1GB for an additional \$10 per month.

Hosting Fee Billing Process

IMPORTANT: Billing is done quarterly. Your initial hosting fee will be billed at the same time your setup total is billed. Your initial hosting bill will be prorated based on the setup date of your site and the time remaining in the current quarter. If you indicate you would like to be billed via invoice your first invoice will contain two quarters, and each subsequent invoice will be billed a quarter in advance.

Quarters are

- 1st Quarter: January to March
- 2nd Quarter: April to June
- 3rd Quarter: July To September
- 4th Quarter: October to December

Example: If you sign-up for a site on October 7th, then your initial hosting would be prorated for October, plus you will be billed for November and December at whatever monthly hosting rate you choose.

SECTION TWO

ADDITIONAL MONTHLY SERVICES

Additional Storage Space \$10 per month per 1GB (billed quarterly)

The Audio/Video Streaming system offers additional options for larger storage space requirements.

Email Protection Package - Stop Spam & Viruses (per domain) \$14.99 per month (billed quarterly)

The ChurchSites Email Protection Package (EPP) offers world class spam and virus filtering for your domain. The Spam filtering management is flexible based on your organizations needs. It can be managed on an individual account basis or by a domain administrator depending on how your organization is set-up.

STOP SPAM

- * Effectively stops 98% of spam before it reaches your inbox, while never discarding a valid message
- * Flexible email filtering management by domain and individual email account
- * Centralized Default Bayesian analysis, whitelists, blacklists, rules and quarantines
- * Per-user Bayesian analysis, whitelists, blacklists, rules and quarantines
- * Stop all kinds of spam - spamware, phishing, obfuscation, fraud, advertising, virus distribution and more

Kill Viruses

- * Includes Clam AntiVirus, the world's leading open-source anti-virus software
- * Filters all of your incoming email
- * Detects and quarantines harmful e-mail attachments, and can be configured to automatically reject such messages
- * Can look inside .zip file attachments to detect and eliminate harmful e-mail attachments that are hidden inside
- * Uses advanced e-mail filtering techniques - such as "hit-and-run" detection, that accurately identify non-legitimate e-mail even before it reaches the server
- * The Spam Filtering complements the anti-virus software by also eliminating the junk e-mail messages associated with most virus attacks today

Email GroupWare (per domain) \$25.00 per month (billed quarterly)

Email Groupware combines the ability to share Address-book and Calendar Items/Tasks among groups of users with optional permission levels (Read/Write and Read-Only). Our system provides a complete Web-based Groupware system for users within your organization. The Groupware module also provides an Outlook-to-webmail synchronization utility, allowing Contacts and Calendar data to be shared between an individual's Outlook 2003/2000 program and their Webmail account. This means that you will have all of your contact and calendar data whether you are at the office or on the road.
